

Recycle your empty medical blister packs At Chudleigh Pharmacy

**Empty Blister packs
Only**

**No cardboard.
boxes / packaging
leaflets**

**No patient details.
leaflets or instruction.**

Hand in your spent

**blister packs
at the counter.**

Thank you.

**The blister packs are collected locally and sent away to be recycled
by a company called terracycle.**

**Recycling blister packs is a complex process as the plastic has to be separated
from other materials such as foil.**

**The plastic is then processed into raw materials in the the form of pellets flakes or
powder. These are used as raw material in the manufacture of many items, including
outdoor furniture and decking, plastic shipping pallets, watering cans, storage
containers and bins.**

**The aluminium foil is smelted into metal sheeting, ingots, or bars for a variety of
industrial uses.**

**Remember, plastic persists in the environment for 100s of years, it can damage
living things in many ways. Every bit of plastic we can recycle saves using oil and
coal derivatives to make it from scratch.**
